Cirium Diio is the leading airline analytics platform for the aviation industry. **The Cirium Diio suite** helps stakeholders forecast air travel trends with reliable data on supply, demand, traffic and fares. Cirium serves airlines, airports, travel providers, tourism and other aviation sectors.

## Report Calculation Airline Categorisation 2023

We report OTP figures inclusive of all flights operated under a carrier's brand (mainline, wetlease, subsidiaries. To qualify for the Cirium OTP Report, there is an 80% actual gate arrival time data coverage requirement for all airline categories. These categories include Global, Major (by region) and low-cost carriers.

For the Global Airlines category, we consider the Top 10% of all passenger airlines by capacity and volume criteria — by Available Seat Kilometres (ASKs), flights and seats—the airline must also serve at least three regions.

For Major Airlines by Region, the threshold for ASKs, flights and seats, varies by region to accurately reflect the size of operations in that region.

The thresholds are:

Region	Flights, Seats, ASK, Threshold		
ASIA PACIFIC	Top 30%		
EUROPE	Top 30%		
LATIN AMERICA	Top 30%		
MIDDLE EAST & AFRICA	Top 30%		
NORTH AMERICA	Top 15%		

The low-cost carrier (LCC) category reviews airlines that are industry recognised and/or self- identified low-cost carriers. For this category, we consider the Top 60% of LCC airlines. LCC airlines must fall in the Top 60% for flights, seats and destinations to be considered.

Actual Gate Arrival (AGA) Coverage is calculated based on direct operational measures only. These are reported directly by our data sources or observed using ADS-B Positional Data.

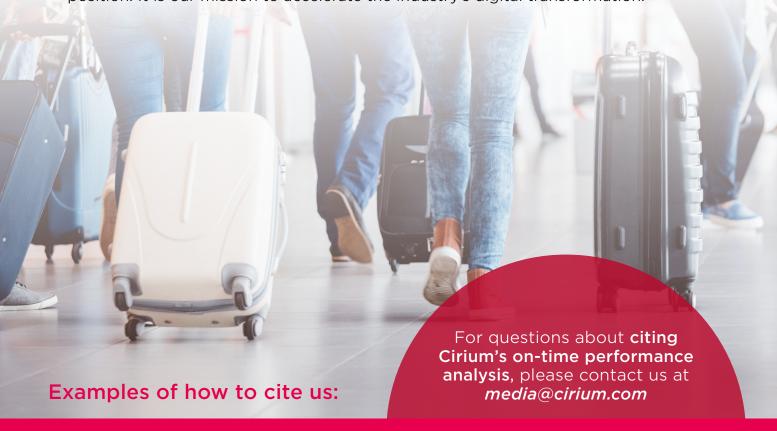

## Usage and attribution

We ask you to cite Cirium if you extract and use the data and information in this report in your own content and marketing. Where possible please also link to www.cirium.com.

The data presented in this report derives from The Cirium Core, which holds information from over 2,000 sources. Cirium verifies and quality checks all the data as we process it. Cirium is solely responsible for all insights and analyses provided in this report.

As a neutral partner in the industry, we rank airlines and airports from an independent position. It is our mission to accelerate the industry's digital transformation.

- According to data provided by Cirium, an aviation analytics company, 86.68% of AirAsia's flights arrived on time for the month of November."
- Cirium, a company that provides data for the aviation industry, revealed that 79.80% of Thai AirAsia' flights across the country arrived on time in November."
- Cirium's study of Garuda Indonesia's on-time performance in November shows that 77.73% of its flights arrived on time."
- Based on Cirium's most recent data, Singapore Airlines covered a total of 9,129 flights in November, resulting to an 74.37% on-time arrival rate."

## Glossary of terms

AIRLINE CODE The IATA code for the airline. This is the code of the Marketing

Airline.

AVAILABLE SEAT Th

KILOMETERS (ASK)

The number of seats available multiplied by the number of

kilometers between origin and destination.

**BLOCK TIME** Referred to as BO. The percentage of flights that were completed

within their scheduled time.

**COMPLETION FACTOR** Completion factor which is the percentage of tracked flights that

were completed (e.g., not canceled)

**COVERAGE** The percentage of published flights for which we have an actual

arrival gate time for airlines and an actual departure time for airports against which we can measure a flight's performance

versus its schedule.

**ON-TIME ARRIVAL** The percentage of completed flights that arrived at the gate

on time. On time is defined as arriving within 15 minutes of the scheduled arrival time. The on-time arrival ranking is used to

determine the top performing airlines.

**ON-TIME DEPARTURE** The percentage of completed flights that departed at the gate

on time. On time is defined as departing within 15 minutes of the scheduled departing time. The on-time departure ranking is used to

determine the top performing airlines.

**ON-TIME RANKING** For each list of airlines and airports, on-time performance is ranked

where a rank of 1 equates to the best performance.

**SEATS (MILLIONS)** The estimated seat capacity of all scheduled flights.

TOTAL FLIGHTS The total number of scheduled single segment flights (consisting of

one origin and one destination).

TRACKED FLIGHTS The percentage of published flights for which Cirium tracked an

actual gate arrival time, cancellation or diversion.

## Cirium history

Cirium brings together powerful data and analytics to keep the world moving. Cirium delivers insight built from decades of experience in the sector. We empower travel companies, aircraft manufacturers, airports, airlines, and financial institutions, among others, to make logical and informed decisions to shape the future of travel, grow revenues, and enhance customer experiences. Cirium is part of RELX PLC, a global provider of information-based analytics and decision tools for professional and business customers.

#### 1909

#### 1985

#### 1997

#### 2004

#### 2011

Launched the world's first weekly aerospace magazine. Launched airline specific insights to airline C-suite with the title Airline Business.

Created online news and data service for aerospace and airports (formerly known as **ATI**).

Expanded in aerospace with the most comprehensive technical fleet database (known previously as ACAS).

Grew portfolio with the addition of aircraft finance services with historical fleet and valuations data with acquisition of **Ascend**.

#### 2014

### 2016

#### 2019

#### 2020

Added historical airline schedules data to business with acquiring Innovata.

The pioneer in global, real-time flight status data, FlightStats brought into the group.

Expanded the group's offering with **Diio**'s fares, traffic and schedules analysis tools.

New aviation analytics brand **Cirium** launched showcasing the industry's largest data store and an advanced solutions portfolio. Added live flight and navigational data to the Cirium portfolio, bringing in initiatives for System Wide Information Management (SWIM), with Snowflake Software.
